

## Statistics for the SDGs - indicators for regional priorities

<b>Name of the indicator</b>	<b>2.B.2 Share of agricultural market output in final agricultural output</b>
<b>Sustainable Development Goal</b>	Goal 2. Zero hunger
<b>Priority</b>	Ensuring food quality, safety and food security
<b>Definition</b>	Share of agricultural market output in final agricultural output.
<b>Unit</b>	percent
<b>Available dimensions</b>	total
<b>Methodological explanations</b>	<p>Agricultural commodity production is the sum of sales of agricultural products to purchasers and at marketplaces.</p> <p>Commodity production does not include turnover between individual economic entities included in the same group of entities and sales of agricultural products by agricultural production cooperatives to members of these cooperatives. Since 2004, agricultural commodity production includes supplementary payments calculated for a given year to the area of crops.</p> <p>Final agricultural production is the sum of the values of: commodity production, natural consumption of agricultural products from own production, increase in stocks of plant and animal products and increase in the value of the livestock population (livestock - basic and turnover herd).</p>
